Mid - Autumn Festival

Moon festival is one of the most popular festivals in Hong Kong. We always celebrate Moon festival in September. People like the celebration because they can have a holiday and they can have party with their friends.

At Moon Festival, People usually eat moon cakes. During the festival, People carry different-shaped lanterns at park. We can watch full moon at home with our family. I usually watch lantern party in park with my friends. Sometimes we eat moon cakes.

I enjoy eating traditional ones with salted egg yolks and lotus paste filling. There is Fire Dragon Dance at Tai Hang at night but we seldom watch it.

I like the celebration most because it is warm and fun. The Moon Festival is a magical festival you should not miss.
