

# **Review – An Amazing Show**

## **Showtime**

Do you enjoy watching amazing shows? I do.

Last Sunday evening, our district board – Sham Shui Po held the first special show at Cultural Centre. Students from different school took part in the show. They wanted to show their wonderful acting skills to all Hong Kong people. There were many stunning acts. The audience found it very interesting.

First, it was Song Time. There were solo singing and group singing. The youngest performer is only five years old. His voice was excellent and sweet. There was a band from a primary school. They did a rock song by Kings. The guitarist and the violinist were excited. They made the audience feel excited too. We were very high. The next performance was dancing. There were folk dance, hip-hop dance and ballet solo. I like the ballet dancers who showed great dancing skills. Hip-hop dance was also a surprise to us because their moves were amazing. All the audience clapped loudly for them.

After that, in the magic show, some boys stood on tables to show their original magic acts. The tricks were very impressive and mysterious. Then a drama was performed by students from Nam Wah Catholic Secondary School. The script was originally written by them. The dialogue were funny and they showed brilliant skills. The final one was the puppet show. The puppeteer told us a traditional story with puppets. I love the puppets which were made in England.

This show was wonderful and all students performed with energy and confidence. The stage design was creative and lighting was clever. The audio-visual effects were great and stunning. Their make-up skills were professional. The whole audience enjoyed the performances and applauded loudly at the end. All performers appeared on the stage to thank the audience.

If you like watching shows, don't miss the next "Your Showtime".
