

# Dangerous Man and Lily

When the film starts, the main character, Lily Lee (played by actress Sammy Chan) is running with her dog Coco at the park. They are having fun.

Later that evening, Lily and Coco stays at home. They sit on the sofa to take a rest in the living room. While it is sleeping on her lap, she is massaging it's back. She is very tired, so she lays her hand on a cushion.

Suddenly, the doorbell rings, so they wake up. When she is going to open the door, it becomes very alert. She wonders who comes to find her late at night.

When she opens the door, she sees a man who is wearing a long black coat. He is very tall and he looks very ugly and angry. She doesn't know him. It senses the danger when it sees a knife in his pocket. He looks so unfriendly that she feels very scared.

At that very moment, when the man tries to take out the knife, it runs as fast as he can to that man. It bites him so hard that he screams loudly and falls down. She runs to dial 999 at once to call the police. Suddenly, the man wakes up to pick up the knife again. After 5 minutes, the police arrive to catch him and take him to the police station.

Dangerous Man and Lily is an exciting action film. The actress gives an outstanding performance. She has brilliant acting skills. Beside, the plot is fresh with an unpredictable ending, a beautiful theme song and special sound effects.

If you love action films, don't miss it!
