

Sports promotion week

By 3A Lee Yiu Wah

- A We're going to have a sports promotion week and we need to think about activities for our schoolmates during the week. First, let's talk about why it's good to play sports.
- B I think playing sports is good for health.
- C Also, doing more sports will make us stronger.
- D Yes, I agree with you. But which sport is good and easy for us to play?
- B Umm... I suggest we can find some popular sports in Hong Kong. Then, we can choose seven kinds of sports for the sports promotion week.
- C Well, that sounds good. But how can we know these sports would work? Should we do something to promote the sports?
- A That's a good idea. Well, I think we can hold some different activities to promote them, such as holding a basketball match to promote basketball, shooting goals to promote football, playing a rope-skip game to promote rope skipping and so on.
- D Moreover, we can use some gifts to encourage students to join the activities.
- C We may invite some class teachers to conduct these activities.
- A We also need support and resources from the school, such as PE department. For example, we need money, too.
- C Yes, that's right. Do you have any other suggestions?
- B If no, I think that's all for the time being today. If there is any other details, we will talk in the next discussion.
- D Okay! Thank you.
- B Good Bye.
- C Bye.
- A Bye.
