

Dear Amanda,

Thanks for your letter. I was very happy to hear from you. All things with me are fine. I was very happy during the Christmas holidays because I could play with my friends everyday. We went shopping and had a Christmas party. We also sang, danced and so on.

Anyway, I won't forget all my old friends in Hong Kong. I miss them very much. I am really still homesick. To be honest, it is snowing now. I feel very cold. In fact, I love winter in Hong Kong.

Speaking of Kelly Ko, she is really great. Give Kelly Ko my congratulations! How are things with other old friends? What have they been up to?

My school is big and modern. Bit it is a long way from my home. It takes about 30 minutes to get to school by bus. Speaking English all the time was difficult at first, but now speaking English is fun. I made a new friend last week. Her name is Mary. She is very nice and smart. To be honest, she is really beautiful, many people love to talk with her. The teachers are nice and helpful. The students here are friendly and interesting. Also, I had two projects to finish last month. But not like Hong Kong, there are not many tests at school.

I'm coming back on June 30 this summer. Can you meet me at the airport? You must show me around in Hong Kong!

Got to go - I must go to bed. Give my love to your parent. I don't have any fights with Harry because we are growing up now. Don't forget to write.

All the best
Emily
