Dear counsellor,

I am a secondary 4 student and have just started studying at a new school. I am writing to you for advice as I am facing many problems with my life and I do not know how to manage them.

The first problem I am facing is loneliness. In my previous school, I was able to make friends easily. However, now that I am attending this new school, it seems that nobody wants to get to know me. I have tried to make friends but the other students are always too busy to talk to me or are not interested in me. I don't know how I can make new friends when nobody will even talk to me. What can I do?

The second problem I am facing is drugs. Some of my classmates sell drugs to me. They sell drugs to me in the lunch time, in the classroom or in the toilet. What can I do?

I hope you can help me with these problems and give me some good advice.

Yours faithfully,
