S.4D Students' Writing on Teenage Problems

0708 S.4D Mak Yuen Wah

Dear counsellor,

I am a secondary 4 student and have just started studying at a new school. I am writing to you for advice as I am facing many problems with my life and I do not know how to manage them.

The first problem I am facing is loneliness. In my previous school, I was able to make friends easily. However, now that I am attending this new school, it seems that nobody wants to get to know me. I have tried to make friends but the other students are always too busy to talk to me or are not interested in me. I don't know how I can make new friends when nobody will even talk to me. What can I do?

The second problem is lessons are too boring. When I attend class, I feel bored. I will sleep in the lessons. Sometimes I think the teachers are merely talking, talking and talking. So, I think the lessons are not funny. What can I do?

The third problem is I am addicted to my computer. When my classes are over, I go home. Then I turn on the computer. I will play computer games. I sometimes did not eat dinner or even forget to eat for the whole day. I don't sleep sometimes because I play computer. What can I do?

(100 words)

I hope you can help me with these problems and give me some good advice.

Yours faithfully,
